Dear Mr. Gilman,

We thank you for entrusting your Jaeger-LeCoultre timepiece to us for inspection. We would like to take this opportunity to share with you additional information about our quote.
Offering the best service possible and returning your timepiece to full working condition is always our highest priority. Therefore, necessary and optional interventions may be offered to you.
While the necessary interventions that are required to maintain the smooth functioning of your model can either be entirely accepted or rejected, the optional interventions are purely for aesthetic purposes and can of course be declined. Should the compulsory works be rejected, your timepiece will be returned to you unrepaired.
Please find below the details of our diagnosis and service proposal.

Your request(s)/remark(s):

- Watch Stopped Working

Please find below the comments and observations of our Master Watchmaker:

- Watch stopped
- Movement accuracy not in specifications
- Crown : not water resistant
- Case: normal wear
- Bracelet: normal wear

Therefore, we are glad to offer you:

Necessary intervention(s):

Complete service

Replacement of the crown

Optional intervention(s):

Polishing

The approximate completion time will be 4 weeks from approval of the estimate depending on availability of parts and final quality control.

In order to guarantee a service of excellence, and because any intervention on the creation's components could lead to their deterioration and/or destruction, the price shown includes the removal by us of any components that need to be replaced, if applicable. The removed components shall become our property from the time of their replacement. By accepting the quotation, you irrevocably waive any right to receive any of the removed components after the repair. This also applies to any repairs and/or replacements performed free of charge under guarantee.

By authorizing us to proceed with the repair, you are agreeing to pay an amount not to exceed the estimate in return for our performance of the repair work.
